4 Prompt Utama

Pilih sesuai jenis produk dan pose yang Anda butuhkan. Copy seluruh teks di dalam kotak abu-abu.

PROMPT 1 - Produk Tertutup (Botol/Tube/Jar)

Untuk semua jenis produk skincare yang masih dalam kondisi tertutup (botol serum, tube cream, jar tertutup, dll).

Combine two reference images into one realistic photo:

IMAGE 1 = PRODUCT: Use the skincare product exactly as shown. Keep the packaging, label, text, logo, color, and design 100% identical and unchanged.

IMAGE 2 = HAND: Use the hand exactly as shown. Preserve the same skin tone, finger shape, nail style, skin texture, and natural details. Do not smooth, airbrush, or alter the hand.

COMPOSITION: The hand from image 2 holds the product from image 1 in a natural relaxed grip, gripping from the lower-middle area, thumb on the front, fingers curled comfortably around the back. Product held vertically, slightly tilted toward camera, label fully visible and not blocked by fingers.

BACKGROUND: plain pleated curtain in muted grey, soft vertical folds, slightly out of focus, no decoration, completely simple.

STYLE: Casual indoor photo shot on iPhone, soft natural indoor lighting from the side, slightly cool tone, candid amateur snapshot, raw unedited look, mild natural grain, looks like a real Pinterest lifestyle photo, NOT studio, NOT glossy, NOT professional.

OUTPUT: 3:4 portrait, photorealistic, authentic real-world feel, natural imperfections preserved.

Avoid: plastic skin, airbrushed hand, studio lighting, glamour shot, fake bokeh, 3D render, decorative props, busy background, altering the product or hand.

PROMPT 2 - Cream Jar Terbuka (Tutup Dipegang)

Cream jar yang dibuka, tutup dipegang oleh tangan yang sama. Cocok untuk hero shot.

Combine two reference images into one realistic photo:

IMAGE 1 = PRODUCT: Use the skincare cream jar exactly as shown. Keep the packaging, label, text, logo, color, and design 100% identical and unchanged.

IMAGE 2 = HAND: Use the hand exactly as shown. Preserve the same skin tone, finger shape, nail style, skin texture, and natural details. Do not smooth, airbrush, or alter the hand.

COMPOSITION: The hand from image 2 is holding the opened cream jar from image 1. The lid is removed and held in the same hand using the thumb and index finger on the side, while the jar itself is held in the palm. The jar is tilted slightly toward the camera so the smooth glossy white cream texture inside is clearly visible. Natural relaxed grip, fingers not covering the product label.

BACKGROUND: plain pleated curtain in muted grey, soft vertical folds, slightly out of focus, no decoration, completely simple.

STYLE: Casual indoor photo shot on iPhone, soft natural indoor lighting from the side highlighting the creamy texture, slightly cool tone, candid amateur snapshot, raw unedited look, mild natural grain, looks like a real Pinterest lifestyle photo, NOT studio, NOT glossy, NOT professional.

OUTPUT: 3:4 portrait, slightly top-down angle so the cream inside is visible, photorealistic, authentic real-world feel, natural imperfections preserved, sharp focus on cream texture and label.

Avoid: plastic skin, airbrushed hand, studio lighting, glamour shot, fake bokeh, 3D render, decorative props, busy background, altering the product or hand, changing the cream texture.
